

This action by the Consumer Bankers Association is in my eyes a violation of MY rights. I am quite content with the peace and quiet during the evenings and am opposed to change in Indiana's Telephone Privacy Law. Government officials are in power to protect citizens lawful rights, and our Indiana Telephone Privacy Law is what the citizens of Indiana legally voted to enact. If I want to talk to my bank or any other institution or business, I will initiate the call. It's bad enough I get all their crap in the mail.
